Goodbye Graffiti™ introduces technological breakthrough in Graffiti Removal Systems

FOR IMMEDIATE RELEASE – July 30th 2004

Vancouver, BC - Goodbye Graffiti™ Inc. unveiled today it's first fully-operational prototype of the GOODBYE GRAFFITI™ GREEN MACHINE™ (patent pending.)

GREEN MACHINE™: The world's first graffiti removal equipment that is not only capable of removing more than 55 marker types from 75 different surfaces, but also reclaims, filters, and purifies all washing water used. The complete recycling of all washing water allows for total graffiti removal with *zero impact* on the environment.

Since 1997, Goodbye Graffiti has invested more than \$1,500,000 CAD in research and development of environmentally sound systems and products for it's industry. This has allowed Goodbye Graffiti to remain environmental leaders in industry while always providing top-tier service to customers.

Says Perri Domm, founder and President of Goodbye Graffiti Inc.: "The stewardship of the natural environment is taken very seriously at Goodbye Graffiti™. Our services contribute in a fundamental way to creating cleaner, safer environments for people to live in. This daily dedication to environmental issues has penetrated every operational system in the organization."

Goodbye Graffiti™ was founded in 1997 and offers a complete, proprietary line of graffiti removal products, custom-manufactured graffiti removal vehicles, extensively trained Certified Graffiti Removal Technicians, and the world's first turnkey graffiti removal franchise. Nearing the end of their 7th year of operation, Goodbye Graffiti™ has removed over 4 million pieces of graffiti across North America.
